# NATIONAL STRATEGIES AND POLICIES

## *AUSTRIA*

Dynamic Reinforcement for  
European Adaptation of Migrants

## **Institutional system:**

- Target of the integration policy is the strengthening of:
  - the social integration
  - the linguistic integration
  - the school integration
  - the economical integration
  - the political integration
- Integration in Austria based on the cooperation of the federation, states, municipality and the unions and management

## National plan of action for integration:

- Guideline for integration challenges, integration targets and integration principles.
- The national plan of action for integration includes 25 indicators to evaluate the integration process.
- The fields of the 25 indicators are:
  - Language
  - Education
  - Employment
  - Law
  - Health and society
  - Living and regional integration

Dynamic Reinforcement for  
European Adaptation of Migrants
