## *DREAM in short...*

The project “DREAM: Dynamic Reinforcement for European Adaptation of Migrants” has the aim to reinforce the migrant integration provision through exchange of experience on priority integration areas and spread results of successful initiatives through a EU-wide network of stakeholders.

## *DREAM aims to:*

- ✓ develop and disseminate a comprehensive **database of good practices at EU level** addressing all key areas for a successful migrant integration
- ✓ build a **European-wide network of practitioners** developing national and European initiatives for migrant integration and enrich their expertise
- ✓ **improve the readiness of key actors** and facilitators of migrant integration in the host communities to meet the needs of diverse populations
- ✓ contribute to the **improvement of the capacity** and expertise of the authorities responsible for integration in countries playing the role of “transit” channels to other EU countries
- ✓ **support migrants** in their preparedness to adapt in the host society
- ✓ **enhance the exploitation potential** of educational projects focused on migrant integration

Dynamic Reinforcement for European Adaptation of Migrants

## NEWS

### *The following project tasks are already achieved:*

- **National strategies on migrants:** every partner worked out the national strategies in each country towards integration. The national strategies gave an overview on the institutional systems in each country, the migrant situation and describe political measures and development in each participating country. In order to do that, common principles on EU-migration were elaborated.
- **Best practice Examples:** every partner elaborated the best practices of integration measures. A database of good practices at EU level was developed which addresses all key areas for a successful migrant integration based on the Common Basic Principles for Immigrant Integration Policy in the European Union (CBP).
- **National network:** national networks of key stakeholders and facilitators of migrant integration in the participating countries and at EU level through EURORESO. Each partner worked out a list of associated partners which have mostly a multiplier function in the project.
- **National workshops:** The partners organized national workshops of key stakeholders and facilitators of migrants.

### *What's next on DREAM...*

The final project meeting will take place on 14th/15th of June 2018 in Graz, Austria where we will present the collected best practices concerning the key integration areas "legal process" and "economic process" in a final conference.

### *Project partners:*

BRAINPLUS (AT) – coordinator  
PRESSURE LINE (NL)  
INAB (DE)  
TRADIGENIA (ES)  
KU TU (BG)

BALLYBEEN (UK)  
AKLUB (CZ)  
CFIQ (IT)  
DIAN (GR)  
EURORESO
