DREAM PROJECT

The project “DREAM: Dynamic Reinforcement for European Adaptation of Migrants” has the aim to reinforce the migrant integration provision through exchange of experience on priority integration areas and spread results of successful initiatives through a EU-wide network of stakeholders.

June 14th, 2018, final meeting in Graz

A database of good practices

CHECK OUT THE DATABASE OF GOOD PRACTICES!

DREAM has developed a database of good practices providing successful models for migrant integration in three priority integration areas – legal, economic and socio-cultural. Some of them are developed as national initiatives and implemented in a specific country, while others are developed as international cooperation projects with impact at European level. The good practices are available on the project website (www.project-dream.eu) through a user-friendly search engine allowing users to filter their search by country, target group or a specific integration area.

For more information on the project, please visit www.project-dream.eu
